July 22, 1996

Marilyn McIntosh, Library Director
Monroe Free Public Library
Mill Pond Parkway
Monroe, NY 10950

Dear Ms. McIntosh:

The U.S. Environmental Protection Agency, (EPA) has performed a time-critical removal action at the Pyridium Mercury II Site under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). The CERCLA Removal Action is located in Harriman, Orange County, New York.

We appreciate having the Monroe Free Public Library as the designated administrative record facility for the Pyridium Mercury II Site. The enclosed materials should be added to the original Administrative Record for the site. These additional files, along with any future documents relating to technical activities at the site should be placed in the Monroe Free Public Library and be available for public review. Please replace the old Administrative Record File Contents (pp. i through v with the new contents, pp. i through vi) and insert the additional documents in their respective numerical order. The record files should be treated as a non-circulating reference and should not to be removed from your facility.

By providing the public with greater access to these records, we hope that they will be better equipped to comment constructively about site activities and to understand the issues relating to the selection of the response action at the site.

To ensure the receipt of the additional documents to be included to the administrative record file, I would appreciate your completion of the attached Document Transmittal Acknowledgment form. Please return this form in the enclosed self-addressed, stamped envelope.

Again, I would like to thank you for your cooperation with the U.S. EPA in serving as a Field Repository. If you have any questions or comments, please contact me at (908) 906-6813.

Sincerely,

A handwritten signature in cursive script, appearing to read "Irmee Huhn".

Irmee Huhn
On-Scene Coordinator
